Members of Council
Municipality of Oliver Paipoonge
P. O. Box 10
4569 Oliver Road
Murillo, Ontario P0T 2G0

Dear Members of Council:

RE: Townline Road and Oliver Road

The Roads Division is in receipt of your letter dated October 20th, 2015, concerning ditching on a section of Townline Road and the overall condition of the asphalt surface on Oliver Road.

The ditches on the west side of Townline Road were reviewed at the time the east side activities were undertaken, and it was determined that the west side ditch does not warrant any maintenance activity at this time. If in the future ditching work is warranted, the Roads Division will address the need as part of maintenance activities.

A review of the City’s Asset Management Plan pertaining to the section of Oliver Road, between Townline Road and Twin City Cross Roads, indicates the 2010 rating to be 8 out of 10, indicating capital work is not warranted at this time. The City completed a condition assessment update in 2015, but has not yet received the updated information. Once the updated asset information is reviewed, a determination will be made as to where this section of road may fit into the capital program. Currently, this section of roadway is not listed in the capital program.

The section of Oliver Road was reviewed by the City of Thunder Bay Roads Maintenance Section and, at the present time no maintenance activities are required.
If you have any other concerns or questions regarding this letter please call me at 684-2408 or e-mail me at badams@thunderbay.ca.

Sincerely yours,

[Signature]

Brad Adams
Manager Roads
